Truman Relieves Gen. MacArthur From All Commands in the Far East

MACARTHUR RELIEVED—To millions of small-towners across the nation to whom Gen. Douglas MacArthur has become something of a legend, his removal from all of his commands by President Truman was a shock not easily understood. The action pointed up the seriousness of the break between the general, the White House, and UN statesmen which had raged for weeks over the conduct of the Korean war.

According to grim, stubborn MacArthur, he was fighting Europe's war with arms in Asia while Europe's diplomats continued to fight communism with words. In his blunt, barbed way, he wrote Joseph W. Martin, Jr., house majority leader: "It seems strangely difficult for some to realize that here in Asia is where the Communist conspirators have elected to make their play for global conquest."

That statement struck at the administration's very basis of how to defeat communism. It threw European diplomats into a tizzy. It brought demands in congress that a special bipartisan committee be sent to Tokyo to hear the general's foreign policy views. It brought rumors of the crackdown on MacArthur which the people on Main Street could not believe would ever happen.

The action has produced a shock that may have serious consequences. In the next few weeks congress may possibly be involved in bitter debate as the general's cause is championed by the Republican party.

But above all, it has caused confusion and uneasiness in the mind of the average Main Street citizen whose common sense tells him there is no end in sight for the Korean conflict. It does not answer the question in the minds of millions of people in the home towns: How are we going to get our sons and brothers and husbands free of the blood and filth of Korea?

GRAPES OF WRATH—The people in the big cities of the nation know little about the "Okies" so vividly described in John Steinbeck's novel of the depression, "The Grapes of Wrath." But to the people in the small towns and rural sections of the nation, they have long been a problem—and a necessity.

There are millions of them in the United States, working from the south toward the north as the crops ripen for harvest. And as the harvest nears they are welcomed and just as anxiously the community awaits their leaving. They are poor, often underfed and inadequately housed. They present a problem on the home town level that the individual community is unable to solve.

At last, much to the relief of millions of home towners, the federal government has stepped in and made a survey of their problems. The committee that made the survey has recommended legislation on migratory farm labor that may solve wage problems, establish labor camps, extend social security, public health and education programs with the aid of states and local communities.

Of all the problems that faced the home towns of the nation, that of the migratory worker was one of the most serious. Its solution will be welcomed.

ATOMIC SPIES—In what was probably one of the most dramatic and moving scenes in a federal court in the history of this country, Judge Irving Kaufman sentenced Julius and Ethel Rosenberg, husband and wife atomic spy team, to die for treason.

Said handsome, 41-year-old Kaufman, one of the youngest judges on the federal bench: "I have searched my conscience to find some reason for mercy. It is not in my power to forgive you. Only the Lord can find mercy for what you have done."

Never before in a civil court of the United States had native-born spies been sentenced to death.

Morton Sobell, 34, fellow conspirator, was sentenced to 30 years in prison. The fourth member of the conspiracy, Mrs. Rosenberg's brother, David Greenglass, 30, was sentenced to 15 years in prison.

Thus ended another episode in the constant battle to keep the home towns of America free.

KEEP 'EM ON THE FARM—The old question of "how are you going to keep 'em down on the farm?" showed up again in preliminary figures from the 1950 census of agriculture.

The census bureau announced that the tentative count of the number of farms in the country came to 5,379,443, a "real" drop of at least 200,000 for the first five postwar years and at least 500,000—or about 8 per cent—for the last decade.

The bureau put forth three major reasons: (1) A trend toward combining small farms to form large ones. This was most pronounced west of the Mississippi. (2) A trend away from production of food for home use or sale. (3) Rural people taking jobs in nearby city industries and dropping production of food.

THE LEVELING OFF—Michael V. DiSalle, price director, said in his latest statement that his ceilings have brought "some stability" into view, but that higher taxes and tightening of money and credit supply are needed.

The question in the minds of home town housewives was whether or not the line will hold, or whether there will be another upward spiral in late summer as predicted by many economists.

In defense of controls, DiSalle said: "We had to start price controls. It was a psychological move to combat the factors that were driving us toward a serious inflation."

At Truman's invitation labor returned to the Defense Board.

U.M.T. DROPPED—The house armed services committee dropped efforts to write a universal military training program that would have reached into the home of every family in the nation. The senate had previously approved establishment of a U.M.T. program in connection with pending draft legislation.

The committee adopted an amendment by which congress agrees to consider recommendations to be made later by a five-man U.M.T. commission. Legislators who approved of U.M.T. said they believed universal military training will be enacted within a year.

THE HIGH SCHOOL PROBLEM

Large Numbers of Students Quit Classes

According to a national survey of home town high schools, boys and girls are dropping out of their classes at an increased rate. The study revealed clear danger that the trend may reach proportions comparable to the exodus of students during World War II.

Educators in the high schools of the country are being urged to conduct a "stay-in-school" drive to persuade students to remain until the completion of their courses.

Major reasons for school-leaving were said to be increased employment opportunities, expectation of the draft, economical need, lack of interest in academic work, and restlessness, insecurity or social maladjustment. In the case of those awaiting draft summonses, their grades often suffer.

NEW AMBASSADOR . . . Dr. Yang Yoo Chang, newly-appointed Korean ambassador to the United States, makes a stopover at the Yasu hotel in Tokyo, Japan, before proceeding to his new post in Washington, D.C.

EX-HERO . . . Gregory (Papay) Boyington, 38, ace marine fighter pilot in last war, was charged in Los Angeles court with "being drunk in public and unable to care for himself." He was arrested in front of a cafe.

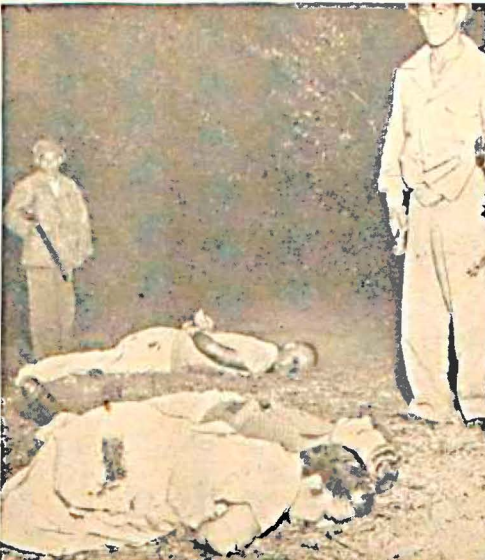

SPY TRIAL JUDGE . . . Federal Judge Irving Kaufman who imposed death sentences on atomic spies Julius and Ethel Rosenberg said, "I would violate the trust of the people of this country if I were to show mercy."

NAVY'S FIRST WINNER . . . Lt. (JG) Thomas Hudner, Fall River, Mass., is the navy's first winner of the medal of honor for action in Korea. He risked his life in an attempt to rescue a fellow airman, Ensign Jesse Brown, first negro naval officer to lose life in any U.S. war. Brown lost his life despite Hudner's attempt.

ATTACK DEFENSE SETUP . . . Philip Murray (left), president of the CIO, terms the national production act the most iniquitous and discriminatory piece of legislation ever enacted. He says labor is not fighting to run the defense mobilization board, but is seeking fair representation. With Murray is United Auto Workers president, Walter Reuther. Murray spoke at a convention of the UAW in Cleveland, Ohio. His words were approved by the members.

KILLED BY HUKS . . . A member of the Philippine constabulary corps views bodies of two Americans and an Australian who were shot by Huk rebels recently at Antipolo, 30 miles south of Manila. Victims are Mrs. Alice Irene Wilkin Hardie (foreground), 42, formerly of Hillmar, Calif.; Donald Capana, 25, Australia; and (background) John Hardie, 53, formerly of Condon, Ore., husband of Mrs. Hardie.

REDS FIRE ON U.S. BUS . . . Corporal Everett W. Goldsmith, an American MP in Berlin, Germany, points to bullet-riddled window of one of the four U.S. passenger buses fired on recently by Communist police at the Soviet-western sector border. The buses carried American soldiers, dependents, boy scout cubs and civilian personnel. They were on a regular weekly tour of the Soviet sector.

GAVE GORING POISON . . . Eric Von Dem Bach-Zetelski receives sacrament at Catholic convent after stating he gave Herman Goring the poison with which the latter committed suicide. He claims that he whispered the word "zyankal" (cyanide of potassium) to Goring through the flap of his cell, and later slipped the Nazi leader a cake of soap containing an ampule of the poison. He was classified as "major offender" and sentenced to 10 years labor.

ATTACK DEFENSE SETUP . . . Philip Murray (left), president of the CIO, terms the national production act the most iniquitous and discriminatory piece of legislation ever enacted. He says labor is not fighting to run the defense mobilization board, but is seeking fair representation. With Murray is United Auto Workers president, Walter Reuther. CAPITOL - COUNTY

News Letter

BY
ASSEMBLYMAN RALPH R. CLOYED

Reapportionment Committee of the Senate killed amendments to change the Assembly bill. This means there is only one more chance—the floor of the Senate. Both the Assembly Committee on Reapportionment and the Assembly itself have passed the bill without major changes. As it stands, San Diego will have four Assembly districts, one full Congressional district and one-third interest in another which is shared with Orange County. Two assembly districts are combined with San Diego's new Assembly district, the seventy-seventh. Current political rumors are that some 18 or 20 members of the legislature have congressional ambitions inasmuch so there are seven new districts and many of the 23 old districts are drastically rearranged. However, most aspirants shy away from firm declaration.

George H. McClain, lobbyist, is denied credentials by the Senate screening committee; however, it is generally agreed that the state's present law regulating lobbyists is meaningless. It does not bar bad lobbyists and it definitely embarrasses some who are considered good lobbyists. The law will probably be strengthened. Despite the refusal to grant McClain or Samish credentials, these men can still lobby if they register and file expense accounts.

Anti-coercion Insurance, the measure that prohibits the buyer of insurance from being forced to buy from any particular company and was especially directed at auto dealers, building and loan companies and realtors, is on the Governor's desk having received

final passage when the Assembly concurred in minor Senate amendments. Oleomargarine ingredients must be printed on the outside of the carton in the bill passed by Assembly and sent to the Senate. It makes it possible for housewives to know what kind of oil the oleo contains.

Hot Cargo bill was withdrawn from the Agriculture Committee and referred to the Industrial Relations Committee (considered a pro-labor committee) by a surprise move on the Assembly floor. However, a notice of a motion to reconsider will hold the bill on the Assembly floor, which gives supporters of the bill an opportunity to try to gain the needed votes to hold the bill in the Agriculture Committee.

Child care centers would be liberalized with the new measure introduced by Assemblyman Geddes. It would appropriate \$7,000,000 as the State's share of financing the centers. This bill would also write a new formula for admission of children. The legislation under which child care centers now operate ends on June 30.

Aid to aged who leave the state will stop if a bill passed with no dissenting votes passes the Senate (which is predicted). Old age recipients who have resided out of the state for more than three years are still receiving benefits and pension checks are even mailed to foreign countries.

Draw Poker ban proposed by A. B. 3377 was referred to the Assembly Interim Committee by the Boards and Commissions Committee. Strategy to revive the bill by a motion to withdraw it to the floor is being mapped by Kloeksiem, author of the bill. To withdraw a bill from committee is frowned upon by many members and becomes a rather difficult task.

Parochial School Bill, exempting all non profit and private schools from property tax, (an assembly passed bill) won the Senate Committee's approval but will probably run into opposition on the Senate floor. James Archer, chairman of San Diego County Reapportionment Committee, along with Arnold Klaus and Herbert Kline spoke before the Senate Reapportionment committee. Others seen around Sacramento and visiting the Assembly chambers during the week included Supervisors Frank Gibson and Dave Bird and Mrs. Bird and Judge Lowell Howe of Chula Vista.

Junior High Track Meet

by Roger Conlee

Lemon Grove Junior High held its fifth annual Intramural Track and Field Meet on the athletic field last Friday.

About 300 students witnessed the cinderfest, directed by Bernard Davis, Melvin Frailey, and F. J. Egan, and other Junior High faculty. Everyone agreed that it was one of the most successful meets in the event's history.

The competing boys were divided into classes, according to age, height, and weight. The classes ranged from "B" to "F". Results follow:

Parents of eighth grade students were given a second opportunity to discuss high school schedules with Mr. Benton Hart, Grossmont Counselor Chief, and

principal of the new Helix High School on Wednesday of this week. This accommodation was made for those fathers and mothers who were unable to talk with high school representatives earlier in the year. Complete schedules geared to the pupils' needs were set up for the 1951-1952 Freshman term.

Students Address Civic Groups

Four eighth grade students from the Lemon Grove Junior High will speak to Lions Club members this evening, Thursday, at the VFW hall. Pat Pfister and Sandra Clark, of 8-3, and Loy Johnson and James Swinney, of 8-2, will discuss conservation as practiced in the home, the community, and the nation. On May 2, Lila Mae Smith, Carol Bisbee, William Blair, and Joel Gleghorn, also of the 8-2 and 8-3 sections, will address a joint session of the Lemon Grove-La Mesa Lions. Harry Butler is the social studies teacher for these two groups.

Music Mothers Club Formed

A representative group of parents from the Lemon Grove School District met in the school cafeteria with Paul Cheatham, music director, and Mrs. W. L. Ropp, Mrs. Wm. Cabral, and Mrs. C. L. Baxter, to form a Music Club on Friday evening. The organization will assist the music department, which included the band, orchestra, and glee club. Mrs. Ruth Pfister was selected chairman of the nominating committee, with Mrs. M. W. Glazebrook and Mrs. J. B. Good. A slate of officers will be elected at the next meeting of this new organization.

Graduation Plans Begun

Mothers of all eighth grade students have been invited to attend a meeting on Friday this week at 3:00 p. m. in Room 26 to discuss graduation plans. Type of dress for both boys and girls will be decided at this time, and plans will be made for the graduation party to be held after the formal exercises in June.

Vista La Mesa School

Public Schools Week Program

Attractive programs were presented in conjunction with Public Schools Week on Wednesday at Vista La Mesa School.

The program by the morning session students was presented at 10:30 a. m., under the direction of Mrs. Virginia Cornelius, a m. program chairman.

Indian Songs and Rhythms were given by the kindergarten, helped by their teacher, Mrs. Thompson. Gingerbread Boy was the work of Mrs. Snell's second graders. Third Grade presented Hiccup, with teacher Mrs. Tait assisting. Combined grades four and five showed scenes from Tom Sawyer.

The first and fifth graders, directed by Mr. Masters, performed early American square dances on the playground for parents.

In the afternoon the program was under the direction of Harold Brogan, chairman. Kindergarten Indians was presented by Mrs. Berdel's class; the Musical Red Hen was danced by the second grade group under the direction of Mrs. Roberts; Mrs. Ritchie's second grade entertained with a verse choir; American songs were reviewed by Mrs. Whaley's 3rd grade; and on the paved playground area, the fourth and sixth grades presented tumbling, stunts, and square dancing, all directed by Mr. Brogan and Mrs. Schwalm.

Ben Schei is principal of the school, and welcomed all visitors during the week.

Third Grade Visits Scripps

The afternoon session of the Third grade at Vista La Mesa Elementary School visited the giant aquarium-museum at La Jolla last Thursday. The Scripps Institute of Oceanography was

dedicated a month ago, and displays the native sea life on this coast in a beautiful setting. The children were able to view 250 varieties of fish, from a four-foot leopard shark to a small goby, a third of an inch long. The field trip was made in connection with the study of sea life in their program. The class was accompanied by their teacher, Mrs. Martha Whaley, Mrs. Thomas Sarantos and Mrs. S. P. Sarantos.

A standard First Aid class was completed at Vista La Mesa School last Wednesday by Neil Beals, instructor from the Lemon Grove School, with the following receiving Red Cross cards: Mmes. Lew Schickelanz, S. G. Hulbert, Ida Cesena, Fern Bowen, Miriam Wood, Phyllis Cole, Dortha Pratt, Kathleen Kerl, Ruth Frederichsen, Mildred Byrd, Luciel Cheney, Lillie Larson, Virginia White, Hilma Durken, Helen Horstman, Dorothy Denlinger, Alice Wrighton, Mr. J. T. Byrd, and Mr. Charles W. Larsen.

Prescott Group Meets

The Prescott Child Study Group, of Vista La Mesa School, was host to Mrs. Helen Van Dusen's Child Study Group this week when the two groups met to work with Virginia Hufstetler, the Child Study consultant from the University of Maryland. Following the group meeting, Miss Hufstetler lectured on "The Child in the Home." Many interested people in both communities attended the lecture, according to Mrs. Emma Tait, Lemon Grove School District teacher representative.

High School News

The Grossmont chapter of the Future Business Leaders of America will represent its school at the annual state-wide F.B.L.A. convention on Saturday, in the Rosemead High School auditorium, Rosemead. Twenty-five F.B.L.A. members along with twelve Lakeside Kiwanis members and the two faculty sponsors, Don Bilyeu and Mrs. Vela Gibson, will leave Grossmont early Saturday morning. The program will be composed of speakers, state officers' elections, and discussions concerning individual club improvements and projects. After the serving of lunch, each person will report to his assigned workshop where he will discuss different business problems.

Grossmont High's famous orchestra took another number one rating on April 14 in the Southern California Orchestra and Band Festival at Fullerton. At 3:00 p. m., the orchestra made its debut and played their three selections, Haydn's "Presto," Hanson's "Romantic Symphony Movement," and the "Great Gate of Kiev," by Morsorsorsky.

The 2nd, 3rd, and 4th year Agriculture students of Grossmont High, supervised by James Dyer and Ralph Brown, Agriculture teachers, went on a field trip to the Santamaguna Ranch at Guatay last Wednesday. The

ranch was owned by Mrs. F. A. Spencer, was formerly known as the Van Worton. Fred Doran, County Farm Advisor, showed them the land burned by the Canyon Fire and told them about methods of re-seeding brush land and range land, the results of re-seeding types of grasses, and methods of brush control. He demonstrated the value of these things and showed them how it had been done.

Two classes from the Grossmont Adult Education program attended the public schools of Tijuana, Mexico on April 13. Making a tour of three grade schools and one vocational school in connection with a group from the Audio Visual Education Convention which took place on April 13 at State College. Geo. Washington J. Cline Slack, John Davis, J. F. Cross, Mrs. Margarita Felding, and Mrs. Louise Shell accompanied the two Spanish classes. This tour to the various schools was escorted by the mayor and the chief engineer of Tijuana. The group also attended a banquet at the Fronton Palace.

Don't Shelve MacArthur

Continued from page 1
Department has not. It is now their responsibility either to adopt the MacArthur program in whole or in part, or to come up with a better one of their own, because to continue the present policy of war without victory can result in disaster for our cause.

Where there should be a policy there is now only a void in the State Department and Administration circles. I, therefore, believe that the greatest possible service the President could now render the country would be for him to call General MacArthur to the White House as one of his advisers to give the country the benefit of his experience and counsel on Far Eastern policy. The fact that he does not completely agree with MacArthur is an argument for rather than against such action. There are too many "yes men" around the President. What we need most in Washington today is new and intelligent leadership.

Must Stop Water Waste

Continued from page 1
voluntary water conservation will be discussed and a suggested plan of operation outlined at the chamber meeting in an effort to avert possible stringent rationing in 1952.

That the public would cooperate in a voluntary water conservation program was evidenced yesterday by widespread reports to the authority and member agencies in which householders cited heavy water waste. On still another front, Super-

Need More Blood for Casualties

Despite all the publicity for blood for use in Korea, the supply, it is reported, falls far short of the demand. So far short—in fact, that one citizen has been moved to suggest that traffic fines be paid for with blood instead of dollars as an emergency solution to help bridge the gap. That suggestion was well meant but giving blood for our wound-

ed soldiers overseas should be a privilege—not a penalty.

The daily casualty lists in our papers are not pleasant reading, but they should bring home to those untouched by the fighting in Korea, the stark fact that boys from California cities and towns are being killed and wounded on the battlefield. These men are giving all. Will you give a pint of your blood? Phone your local Red Cross or your County Medical Society for an appointment. Remember, your blood, to a wounded GI, can mean the difference between coming home and resting under a rude cross on a Korean hillside. Let's measure up to our privilege.

Here's the secret millions of folks have discovered about FEEB-A-MINT, the modern chewing gum laxative. Yes, here is a truly new and better action in a wonderful, fully different!

Doctors say that many other laxatives start their "bubbling" action in the stomach, right in the stomach where food is being digested. Large doses of such laxative work downward, pushing down the food you need for health and energy. You feel weak, worn out.

But gentle FEEB-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes any waste, and good food! You avoid that typical "weak, worn-out feeling" the run-a-gut laxative would give you. FEEB-A-MINT increases in price—still 50c, 50c or only 10c.

When only a few drops of lemon juice are needed, puncture the skin of the lemon with a fork and gently squeeze out the amount of juice needed. This eliminates the waste that occurs when a lemon is cut, as it keeps the remaining lemon juice fresh.

When eggs are scarce, a medium-sized grated raw potato may be substituted for the egg usually used in a meat loaf. The potato will bind the mixture together just as the egg does.

Leftover vegetables can be perked up if they're served with browned butter to which a few bread crumbs have been added.

HADACOL BRINGS RELIEF TO FOLKS SUFFERING STOMACH DISTRESS

Indigestion, Gas, Heartburn, Bloating When Due To Vitamins B₁, B₂, Iron and Niacin Deficiencies

Guy H. Housley, 641 14th St., San Diego, Calif.: "I am 40 years of age and have suffered from indigestion, heartburn, 'sour twangs' after meals) because your system lacks Vitamins B₁, B₂, Niacin and Iron, important elements contained in HADACOL. With today's great HADACOL you can actually relieve the cause of such stomach disturbances caused by these deficiencies. A marked improvement is often noticed within a few days' time. And continued use of HADACOL not only gives continuous relief, but helps prevent such distress from coming back. That's the kind of product you want—the kind you should buy—the kind you should start taking now. Anyone would be very foolish indeed to be satisfied with symptomatic relief, when HADACOL makes it possible to relieve the cause of this stomach distress due to such deficiencies. Know the joy of eating the foods you like without suffering gas pains, heartburn and indigestion afterward!"

Mrs. Minnie McCormick, Rt. 1, Wedmore, Ariz.: "I am glad to tell you that HADACOL has done for me. After taking one bottle of HADACOL, I went to work in the field, chopping cotton, doing all my housework, milking, washing and ironing. I have taken several bottles of HADACOL now. I can't ever praise HADACOL enough to cover all it has done for me when I had no appetite at all. Now I eat anything and have a good appetite and nothing bothers me. I never do without HADACOL now. My friends noticed my change, and now they are also HADACOL users, too. My 77-year-old daddy uses HADACOL. I want to say thanks to HADACOL and to the makers of HADACOL."

Here Is Wonderful News For You: "Folks Who Suffer From Stomach Disturbances (indigestion, heartburn, 'sour twangs' after meals) because your system lacks Vitamins B₁, B₂, Niacin and Iron, important elements contained in HADACOL. Know the joy of eating the foods you like without suffering gas pains, heartburn and indigestion afterward!"

Mrs. W. H. Morton, Route 1, Murfreesboro, Tenn.: "HADACOL has helped me so much I feel I have to write about it. Before I started taking HADACOL, I had a very nervous stomach and could not eat. So I heard about HADACOL. I got a bottle to try and began to feel better and could eat anything I wanted to. I feel so much better now. I am always telling my friends how HADACOL has helped me. And I just can't think of enough to say about HADACOL and what it has done for me. I am 28 years old and a steady user of HADACOL. I have been taking HADACOL for about a year."

Mrs. John A. Feight, Jr., of Route 1, Bedford, Pennsylvania: "Anything I ate made my stomach ache and churn all night. My food never seemed to get digested and therefore I would wake frequently in the night with pains. I would be nervous and think over the day's nerve-racking experiences. Every little thing irritated me. I couldn't stand children around me. They made me nervous. I would holler at my two-year-old daughter, Vickie, for nothing at all. Since taking HADACOL all my nausea and nervousness have passed away. All I can say for HADACOL is that it's made me see that this is a beautiful world after all. I'm 29 years old and am a housewife. I really do feel as great as I look in the photograph."

CLEM WHITAKER, Jr.

While the eyes of the Nation have been focused on President Truman, General MacArthur and foreign policy for the last few weeks, a controversy, certain to flare again soon, is smoldering in California that may determine the extent to which California will affect that foreign policy.

The California issue is reapportionment. California's reapportionment problem is linked to the decision on foreign policy because the State is supposed to gain seven new Congressmen next year. But California may not get its additional Congressmen so soon; not if the Democrats can stave off reapportionment beyond the 1952 elections.

The apparent strategy of the State's Democratic Party, in fighting the Republican-drawn reapportionment plan is to protect present Democratic strongholds and incumbents through another term of office.

FROM THE NEWS CIRCUIT
JAMES DORAIS

This week is Public Schools Week, and in communities all over California and the Nation, parents are going to school.

They are attending refresher courses in what the schools are doing for their children. They are studying the problems of teachers and school superintendents and school board trustees. They are reviewing their own responsibilities in the dual capacity of taxpayers who support the schools and of parents whose children benefit from the school system.

All this is as it should be, for in America public education is a grass-roots affair. In countries where school policies are dictated by the State, where education serves the ends of politics, there is no such thing as a week devoted to better understanding between parents and local school authorities.

One of the arguments against Federal aid to education is that such aid inevitably would be coupled with political control of education, and would eliminate the grass-roots approach which Public Schools Week symbolizes.

Many who favor Federal support for States and communities for education, sincerely believe that traditional non-partisanship and non-political control would not have to be forfeited for such support. There seems a small doubt, however, that at least the danger of political domination would exist and would have to be zealously guarded against.

John W. Studebaker, for 14 years United States Commissioner of Education, until his resignation in 1949, warns of this danger in a recent issue of the American School Board Journal. His resignation, in fact was prompted by steps that already have been taken to "streamline" the formerly non-partisan U. S. Office of Education along party lines.

In recent years, the Office of Education has been made a part of the Federal Security Agency. Headed by Oscar Ewing, the Agency, Mr. Studebaker relates, now exercises rigid control over all Federal education activities, technical publications and press releases.

Mr. Studebaker, shortly before his resignation as Commissioner, made a speech at the University of California, in which he said that no Communist was fit to teach the American way of life in any school. He forgot to get it cleared by Mr. Ewing's aides, and was admonished by one of those aides that he should not make such statements in the future because of their "bad reaction."

Mr. Studebaker proposes that a National Board of Education be established, elected by State Boards of Education, to formulate Federal education policies, free of influence by the political party that happens to be in power. And he advocates that members of State Boards of Education, instead of being appointed by governors, be elected by

local school boards. "Grass roots" control is Mr. Studebaker's aim.

It is an aim most parents who visit their schools this week would endorse, as their very presence there would prove.

FARM NEWS AGRICULTURAL EXTENSION SERVICE

Fryer Production Costs

Poultrymen are invited to attend meetings on the subject of "Fryer Management," when results of the 1950 San Diego County Fryer costs of production which compares results of wire pen raised fryers vs. litter pen management practices will be presented. Three meetings are planned by the Agricultural Extension Service of the University of California, according to Robert H. Adolph, Farm Advisor in poultry for San Diego County. Meetings are scheduled as follows:

Grossmont: Tuesday, May 1 at 7:30 p. m., Grossmont High.
Vista: Wednesday, May 2 at 7:30 p. m., Vista Union High School Room 107.
Escondido: Thursday, May 3 at 7:30 p. m., Escondido High.

Scrap Iron and Steel Needed

Much of the record amount of iron and steel scrap needed to keep the nation's steel mills rolling this year must come from farms and ranches. So indicates a message from the National Production Authority received by Farm Advisor E. C. Moore of the University of California Agricultural Extension Service.

Worn-out tractors, plows, rakes and harrows, and even such small pieces as plow points, bolts, and washers, are to be found on a number of farms. All of this is needed to make the steel for military equipment and farm machinery. It is estimated that half the steel in a tank or tractor is scrap.

Such scrap can be sold to salvager dealers in town, or to trucker-buyers who call at the farm. Farm Advisor E. C. Moore points
